#### HANDFASTING VS MARRIAGE

rights.

The letters "H/F" may be found beside a person's

name on early marriage and birth records. abbreviation stands for "Handfast." It is basically a sign of the confirmation of a form of "uncanonical private or even a probationary form of marriage." Handfasting was a form of announcing a union between a man and a woman who wished to live together as husband and wife before receiving the blessing of the church. The couple would stand before a group of peers, hold their clasped hands above their heads and state their intentions. The agreement was good for a year and a day, or until the preacher came to perform the rites of the church. If, at the end of this time period, each wished to go his own way, they could do so without ties. Any child born of a handfast was considered legitimate and with inheritance

The State Historical Society of Wisconsin has the second largest collection of newspapers in the United States, surpassed only by that of the Library of Congress. It is national and spans the period from seventeenth century to the present. More than 4,000 titles are included. Many have been microfilmed and are available on library loan. This library should be the first place to look for a newspaper after checking with the searcher's local libraries. From Poweshiek Co. Newsletter.

AN ANCESTRY begins with a single individual and traces back in time to include the male and female lines of that person's ancestors. A full eight generations of one's ancestry would involve 511 persons.

A GENEALOGY, on the other hand, begins with a single ancestor and traces forward in time to include all descendents to the present. From Davis Co. newsletter.

## PENNSYLVANIA RESEARCH

Don't overlook the Prothonotary Office when you are researching in Pennsylvania. This office may contain your ancestor's Declaration of Intention for Naturalizations! Fraom: Old Fort Genealogical Society, Inc., Fort Madison, IA - January, 1992

## MILITARY MEANINGS

During the Revolution, the Militia was made up of local men. The records of their service will very possibly be found at the county level.

When a soldier joins a state regiment, he is "enlisted." When his regiment was taken into Federal Service, he was "mustered-in." If the soldier left the service while his regiment was on active duty, he was "discharged." If he was still with the regiment when it was released from Federal Service, he was "mustered-out."

During the Revolutionary War, those holding the rank of Captain, Lieutenant or Major were considered to be educated. They may have attended school for as few as three years. Anyone holding the rank of Sergeant or lower, probably had not attended school.

Revolutionary records that should not be overlooked: Descriptive Roll (compiled for identification in case of desertion), wounded lists, hospital lists, deserter lists, and prisoner exchange lists.

If you know your ancestor served under a certain Captain or Colonel, but don't know where he lived...research the officer. They lived in the same county as the privates who served under them. Old Fort Genealogical Society, Inc., Fort Madison, IA - January, 1992

#### 1920 CENSUS (T525)

The 1920 census to be released in March, 1992 is similar in format to the 1910. However, it did not ask about unemplyment on the day of the census or about service in the Union or Confederate army or navy. Also omitted were questions about the number of children born and how long a couple had been married.

The date for initiating census was also changed and the census began on January 1st rather than in the spring or early summer. Also added were four new questions—one asking the year of anturalization and three about mother tongue. Because of changes in some boundaries following World War I, enumerators were instructed to report the province (state or region) or city of persons declaring they or their parents had been born inAustria-Hungary, Germany, Russia or Turkey. If a person had been born in any other foreign country, only the name of the country was to be entered.

The instructions to the eunmerators did not require that individuals spell out their names. Enumerators wrote down the information given to them; they were not authorized to request proof of age, date of arrival or other information. People were known to change their ages between censuses and some people claimed not to know their age.

Below are the categories of information that were requested in the 1920 census.

#### CAN YOU HELP? --- QUERIES

More from Mrs. Willard P. Hart, 523 SE Brentwood, Lee's Summit, MO 64063 HART, Nncy Caroline, born about 1829/30 in Kentucky or Illinois, daughter of William Morgan and Elizabeth (Hart) Hart, married to Joseph Neeley about in Warren County, Iowa, living in Fannin County in 1876, and believed to have died in 1887.

HART, John Morgan, born about 1836 in Illinois, a son of William Morgan and Elizabeth (Hart) Hart. Elizabeth died and William Morgan Hart married her sister Rececca in 1838 in Putnam County, Illinois; they went to Mercer County, Missouri, in 1839. It is believed that John left h is home there after a few years and lived with relatives in Iowa, probably Warren County, and eventually "went West."

WALTERS, John and family. Was his wife Louisa or Eliza and was her maiden name Hart? Only known child was Mary Ann, born about 1859 in Whitley County, KY. She was married in 1880 in Warren County, IA, to Willard P. HallHart, who was born in 1846 in MO. His father was William Morgan Hart, originally of Whitley Co. When and why did the Walters family go to Iowa? Were they following other Whitley Cc. families?

Two queries from Jill Joseph-Hansen, 4773 Stonehedge, Santa Rosa, CA MONROE, Lovina, born 11-20-1026 Onio, died 05-31-1912 Warren County, IA. Possible parents: father Daniel Monroe, born Ohio; aother Martha SaOUD (?) born Ohio. Did the parents live in warren County? Lovina was married to Samuel Ruel (?) CAIN, born 6-30-1621 Gallia Co., Ohio, died 04-08-1898 Warren County, IA; married 03-13-1848 Meigs Co., Ohio. Samuel and Lovina raised 12 children, all except one was born in Warren County and most are buried in Hartford Cemetery.

MURPHY, Nancy Ellen, born 1842 Illinois or Scotland, died ?, buried in Scotch Ridge Cemetery; married to Andrew HASTIE, born 09-19-1823, Aeikengall, Scotland, died ? in Warren County, IA, buried Hartford Cemetery? They were married probably 1869. Three sons born to this couple: Franklin, Burvin and Warner? or Warren. Who were the parents and siblings of Nancy Murphy? Andrew was also married to Elizabeth Whitacre, and Nancy Murphy was possibly also married to Joseph Smith (1st) and \_\_\_\_\_ Bond (3rd). Any information on these families would be greatly appreciated.

From Helen A. Hill, 6905 NE Par Lane, Vancouver, wA 98662. I am interin my Iowa ancestors, one family that came from IL to IA before 1900—Willis J. HILL born Aug 1864 in IL, and IDYTHE FAITH who was born Sept 1873 in IA. Willis was in Odebolt on the 1900 Census as a tinner and Idythe in Indianola as a servant. They married within the next two years and a son, Willis Josiah, born 3 Aug 1903 also in Indianola (have BC). They were supposed to be in IA in 1910 but I could not find them on the Census. They were deceased when the son married in 1933 in MT. This was my father-in-law who died in 1945 in OR.
